A Neglectini Liver.

A Neglectiul Liver.

The bile has a three-fold part assigned to it by the great manager, Nature. It assists in the digestive process, acts as a coloring agent of the blood, and is essential to the evacuvative function. When the liver grows torpid, complete chaos ensues in the atomach and howels; the bile is injected into the circulation in large quantities, and constipation and indigestion are produced. Pains under the right shoulder blade and through the right side, headaches, vertigo, yellowness of the skin, furred tongues and through the right side, headaches, vertigo, yellowness of the skin, furred tongues and other symptoms of billiousness, and the disorders which accompany it, are entirely removed by Hostetter's Stomach Bitters, that benign rectifier of organic disturbance and nign rectifier of organic disturbance and remedy for physical weakness. Intermit tent and remittent fever, urinary and uter intermediate remains, the mattism, gout, and other maladies, also yield to the remedial influ maladies, also yield to the remeasure ence of the great corrective and invigor ant.
